Plan 403 is as charming as it is convenient, thoughtfully designed with a family in mind. The island kitchen features a food pantry and is open to the great room. The adjoining dining area overlooks the backyard with covered patio. All three bedrooms feature walk-in closets. The remote master suite has two walk-in closets, his and hers sinks, a separate water closet and a large step-in shower.

Plan 403 features energy-efficient home design, including a photovoltaic solar electric system. Combined with energy-conserving construction techniques, advanced appliances and lighting, this means lower energy bills and environmental sustainability.
