Den and Bedroom Five Options

A soaring covered entry leads to the entrance of the grand Plan 405. This home is perfect for get-togethers, with a huge great room adjoining a generously sized dining area. An open gourmet island kitchen features a convenient pantry. The master suite, tucked away upstairs, features a huge walk-in closet. Two other bedrooms and a loft or optional fifth bedroom occupy the upstairs space. A remote downstairs fourth bedroom or optional den with its own bath is perfect for teens or in-law quarters.

Plan 405 features energy-efficient home design, including a photovoltaic solar electric system. Combined with energy-conserving construction techniques, advanced appliances and lighting, this means lower energy bills and environmental sustainability.

Pick up a copy of the Araby Crossing features list for a complete overview of the superior products that are included, and see how Elliott builds your home to be friendlier to the environment and your pocketbook.
